KATMANDOG

About us:

We are proud Wellingtonians who love our city and all it has to offer. Each of us brings something a bit different to the work we do. We like using natural products to create special places. Sometimes with a bit of “quirky” thrown in. Whether it’s a coastal setting, lush bush or a hilltop with a view we enjoy getting stuck in and creating a landscape that fits with the environment and will bring pleasure to the owners.

KATMANDOG

Landscape Services

for house vendors

KatManDog offer a fast, cost effective solution to suit all your property requirements when you are considering selling your house.

When selling your home “**street appeal**” is vital to create a good first impression.

Having a tidy and maintained garden not only looks good but it shows any prospective buyers that you care for the property and take pride in it's appearance. It can also add thousands of dollars to the sale price and help achieve a faster transaction.

In consultation with you, and your real estate agent, we will undertake to improve the street appeal of your property and make it more attractive to potential buyers.

We have over 34 combined years of experience in the landscape industry. Over that time we have developed great relationships with nurseries and suppliers. And that means we can get things done quickly! For you!!

KATMANDOG PROPERTY ENHANCEMENTS

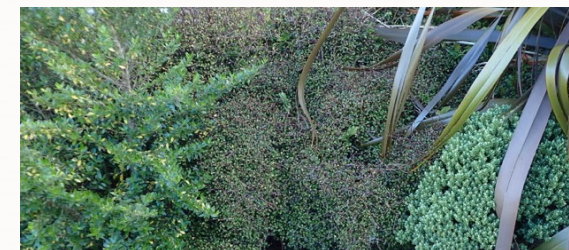

First impressions count.

Our property enhancement and improvement package can be tailored to suit your needs when it comes time to sell. It's a busy time so hand off some of the workload and let us take care of the outside of your property while you focus on the inside of your home.

THE QUICK ONCE OVER:

We'll come in and take care of all the immediately obvious items on your property that need attention. Rubbish removal, weeding, pruning, sweeping, washing..... KatManDog will sort it for you.

THE GOLD STANDARD:

If your property needs a bit more than a cleanup we can provide a range of landscape services. From basic planting to construction of retaining walls, pathways, lawns and more. This option is often less expensive that you might think and adds instant appeal for prospective purchasers.

THE PLATINUM TREATMENT:

As well as a clean up and some remedial planting or landscape work we will also visit your property every week just before Open Home events to ensure it is looking at it's best. This can be an ongoing service or as requested. You decide.
